SLIDE-OUT
EMKOBOARD CONCEPT SYSTEMS
Technical Specification

| Easy Assembly | Ergonomic Design | Easy to Clean | Durable Frame | Brake System | Rail System | Large Writing Area |

The Slide-Out System enhances education and presentations by integrating digital and traditional writing surfaces with interactive flat panels. Its rail system, featuring two durable enamel surfaces, provides a spacious, easy-to-clean writing area and enables seamless switching between digital and manual content. Designed with a sturdy aluminum profile, a space-saving layout, and a safety-focused braking system, it ensures resilience, practicality, and safe use in any setting. With angled edges, ergonomic design, and easy OPS access, the Slide-Out System offers a user-friendly, efficient solution, even in compact spaces.
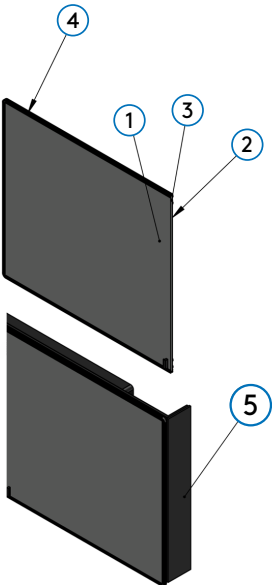

Item No	Product	Definition
1	Enamel	Ceramic Steel
2	Galvanized	0.30 mm Galvanized
3	Chipboard	8 mm MDF
4	Frame	Deluxe Aluminum Frame
5	Side Closure	18 mm MDFLAM
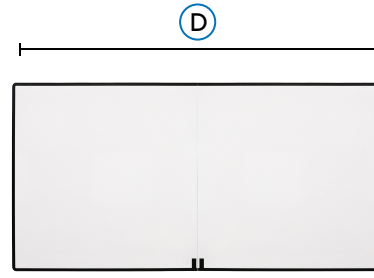

Item No	Size
A	Width of Open State
B	Width of single cover
C	Height of single cover
D	Width of Closed state

Sizes and Dimensions

Size	Width of Open State	Width of Single Cover	Height of Single Cover	Width of Closed State
65"	3730 mm	1120 mm	1030 mm	2240 mm
75"	4100 mm	1230 mm	1164mm	2260 mm
86"	4600 mm	1330 mm	1300 mm	2660 mm
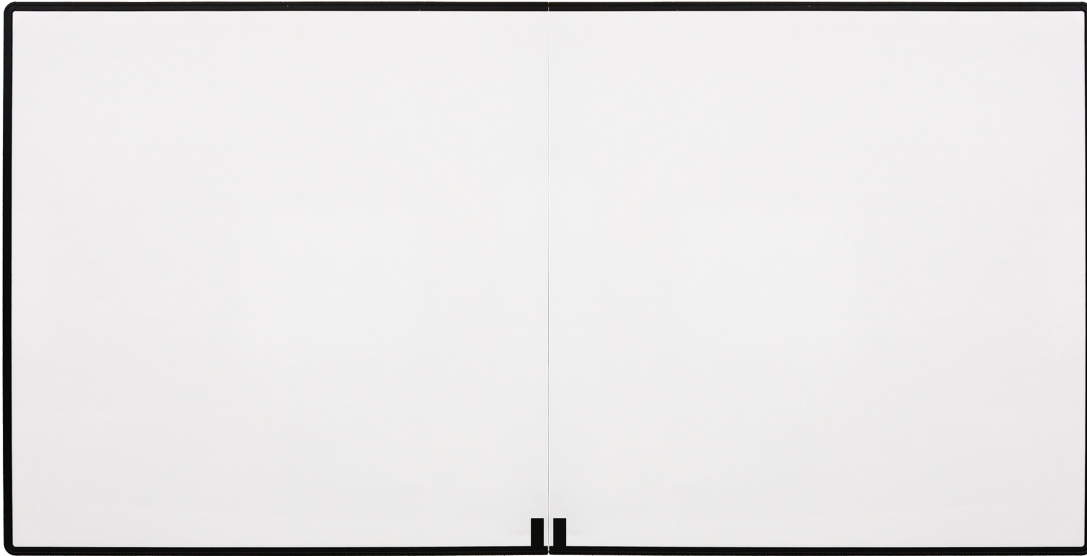

*When the boards come together, the joint appears as a thin line, creating a seamless, unified look.
